

2.7.1 Students Satisfaction Survey

The College was unable to conduct the Student Satisfaction Survey because of the various complications of the Covid-19 pandemic which continued into the academic year 2020-21 also. Availability of direct access with the students was minimal and largely alternated between online /offline classes. In addition to this, being an evening college with a high percentage of students employed in various small jobs and hailing from the outskirts of the city without proper internet connectivity was a huge challenge to conduct online surveys. We will conduct the exercise as soon as the situation becomes conducive.
